### 🎯 OBJECTIVE

Aspiring Frontend Developer with a strong foundation in HTML, CSS, and JavaScript. Passionate about building responsive and user-friendly web applications. Eager to apply my creativity, problem-solving skills, and adaptability in a dynamic development environment. Looking for an opportunity to grow professionally while contributing to impactful projects.

### ⚙️ SKILLS

**Proficient:** HTML, CSS, JavaScript, GitHub

### 🎓 EDUCATION

**B.Tech (CSE)**

Jun 2018 — Jun 2022

Maharaja Agrasen University, Baddi

### 📁 PROJECTS

**Project name:** Logistics Company Website

**Description:** A responsive landing page for a logistics company, showcasing services, contact details, and company information.

**Tech Stack:** HTML, CSS, JavaScript

#### Roles & Responsibilities

- Designed a modern, responsive landing page for a logistics company.
- Developed a visually appealing and professional layout.
- Ensured cross-browser compatibility and mobile responsiveness for a seamless user experience.
- Identified and resolved UI/UX inconsistencies to improve usability.
- Refined the design based on user feedback to align with client expectations and branding.
- Deployed the website and ensured proper hosting, domain configuration, and live performance.
- Integrated interactive elements to enhance user engagement.
